

Internships

Supervised, paid internships are encouraged, especially during the summer between junior and senior year. The region in which Widener is located offers numerous opportunities to work for radio stations, ad agencies, publishers, businesses, and producers of visual arts.

Why Social Science at Widener?

Our social science faculty is committed to teaching excellence. We are dedicated to giving you an outstanding education and to helping you achieve your career goals.

Attention to your interests, individualized educational options, small faculty/student ratio, challenging and stimulating classes, opportunities for practical experience, excellent preparation for graduate and advanced professional studies... are a few of the reasons why so many students choose the social sciences at Widener.

It is the policy of Widener University not to discriminate on the basis of sex, handicap, race, age, color, religion, or national or ethnic origin in its educational programs, admissions policies, financial aid, or other school-administered programs. This policy is enforced by federal law under Title IX of the Education Amendments of 1972, Title VI of the Civil Rights Act of 1964, and Section 504 of the Rehabilitation Act of 1973.

MEDIA STUDIES

Widener
UNIVERSITY
We take your education personally.

Why Media Studies?

The media studies major meets a demand in business, education, and public agencies for media specialists. Many career positions are available to individuals who know how to use media to train employees and to convey information essential for successful completion of tasks. Media specialists can instruct employees in the use of computer software and other media necessary to keep up-to-date in their fields. Also, there are many positions requiring expertise in technical writing and in using media to communicate with the public.

Cross-Disciplinary Core

Media studies is a cross-disciplinary major offered in the Social Science Division of the College of Arts and Sciences. In the core courses required of all majors, students are provided an understanding of the role of media in society, learning processes, organizational environments, research methods and design, and principles of management. The ability to express oneself in writing is emphasized. The core also includes courses in basic instructional techniques, instructional materials, computer languages, and word processing.

Core Courses

Algebra, BASIC and Computers
 Introduction to Computer Science (Pascal)

MANAGEMENT

Foundations of Management

Specializations

Each student selects an area of concentration to complete the major. The concentrations in computer based training, instructional media, writing/editing, and advertising/public relations are designed to meet the needs of a student's specific career orientation.

Facilities

The media studies major at Widener is supported by a wide array of technical facilities. Courses emphasize hands-on experience with photographic, audio, video, and computer graphics equipment.

The Media Center has a three-camera television studio, with a production lab for editing and special effects generation. The campus has a state-of-the-art 16-track and digital audio production/recording studio. Media studies majors also have access to the Social Science Computer Laboratory, as well as to IBM PC's located in academic buildings.

The Writing Center has facilities and supervision for proof-reading, layout design, technical manual preparation, and copywriting. Word processors are used extensively in these activities. The Department of Teacher Education provides many opportunities for students to use media in instructional settings.
