TO: Whom It May Concern

FROM: Mr. Thomas Lapinski, Retired Principal, Mount Pleasant High School

RE: Mr. Clint Dantinne 

I have known Clint Dantinne for a period of nine years in an administrator-employee relationship. Clint was instrumental in the resurrection, development and reorganization of WMPH, the Mount Pleasant High School radio station. His efforts and leadership resulted in not only returning WMPH to the air, but provided the students of our community with an opportunity to become involved with the only radio station of its type in the State of Delaware.

I find Clint to be an industrious young man of high integrity. He finds opportunities to blend modern technological tools into the every day operation of the radio station. His personality permits him to interact well with diverse segments of the student body. He treats all students in a fair and professional manner during their interactions with the radio station.

Clint's energies as WMPH Station Manager extend beyond the local high school. Frequently Clint will extend his services, with the aid of students, into the community. Recently, WMPH was involved in live broadcasts from several local church picnics and carnivals in our community. Such volunteer activities only serve to strengthen the support by the community for our high school and create a stronger bond between the community and the school.

Clint Dantinne would be a positive addition to any professional team. His diverse experience, personality, work ethic, loyalty and support are positive attributes that would have an immediate impact on an organization. I recommend Clint Dantinne for the vacant position without reservation.
