

May 9, 1967

Dear Bob,

We, of the Morris Ticket, feel that the challenge facing next year's student council is to keep pace with the ever-changing needs and interests of the student body.

The success of the student council will lie in its ability to vitalize student government, to make improvements in the school itself, and, most important, to create new activities that reflect the interests of the entire student body.

This platform represents our response to these challenges; in itself it is a challenge. The programs and proposals that we suggest will require much work and energy in order to be achieved. Yet, work and energy are basic to spirit - and achievement is essential to success. We think that we can offer you a spirited and successful year.

Sincerely,

Jesse  
Dick  
Gini
