Mr. Jesse Morris  
Student Council President  
Mount Pleasant Special School District  
Mount Pleasant Senior High School  
Washington Street Extension  
and Marsh Road  
Wilmington, Delaware 19809

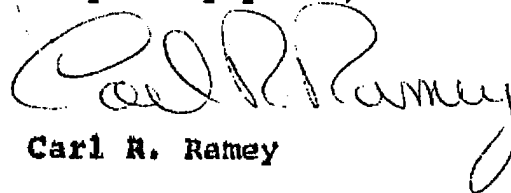

Dear Mr. Morris:

I am afraid I may have to disappoint you somewhat in response to your letter of May 27, 1968. In essence, I can offer you no more tangible evidence of a station than you presently have. The application of the Mount Pleasant Special School District is still just that -- an application.

This is not to say that it has not progressed a great deal and we are hopeful that it may be granted in the near future. However, these matters are never certain, and problems do occur unexpectedly. Therefore, I would be remiss if I speculated that your application was about to be granted.

A lot of work has gone into the preparation of the application, and recognizing the difficult, time-consuming, and often arduous trail an application must follow through the Federal Communications Commission, the students, and I mention here particularly Mr. Bob Huber, must be congratulated for their extraordinary efforts. They have performed and met their tasks as well or better than many of our clients who are experienced broadcasters.

Very truly yours,

Carl R. Ramey
